Subject: RE: Square footage of LLRS facility

Well, I'd love to have the "facility" off my plate and my full attention on operations here because we are moving into a major renovation of this facility; \$10 million over 3 phases. If some opponents would like to stay, all they need is an O&M contract and I'd high five them into the sunset. Have fun with that Congressional circus; maybe they'll give you some cotton candy and a corn dog.

Yeah right. But this is actually the second or third C. inquiry. Certain opponents to placing our emergency operations in AA keep finding new ways to fight it. Unsuccessfully. But it's a pain.

A congressional inquiry on why you are moving??? Awesome, I've been waiting 2 years for you clowns to move out, now you have to justify it to the congressional circus. Wow, good luck, juggling in front of that crowd; be sure to explain how long it takes to get an elephant out of an old EPA building.

Would either of you have this at your fingertips? Just the main building.
